

## Kindy Week 9

### Day One

#### **Literacy Activity:** Tuning into Sounds- *Which Instrument?*

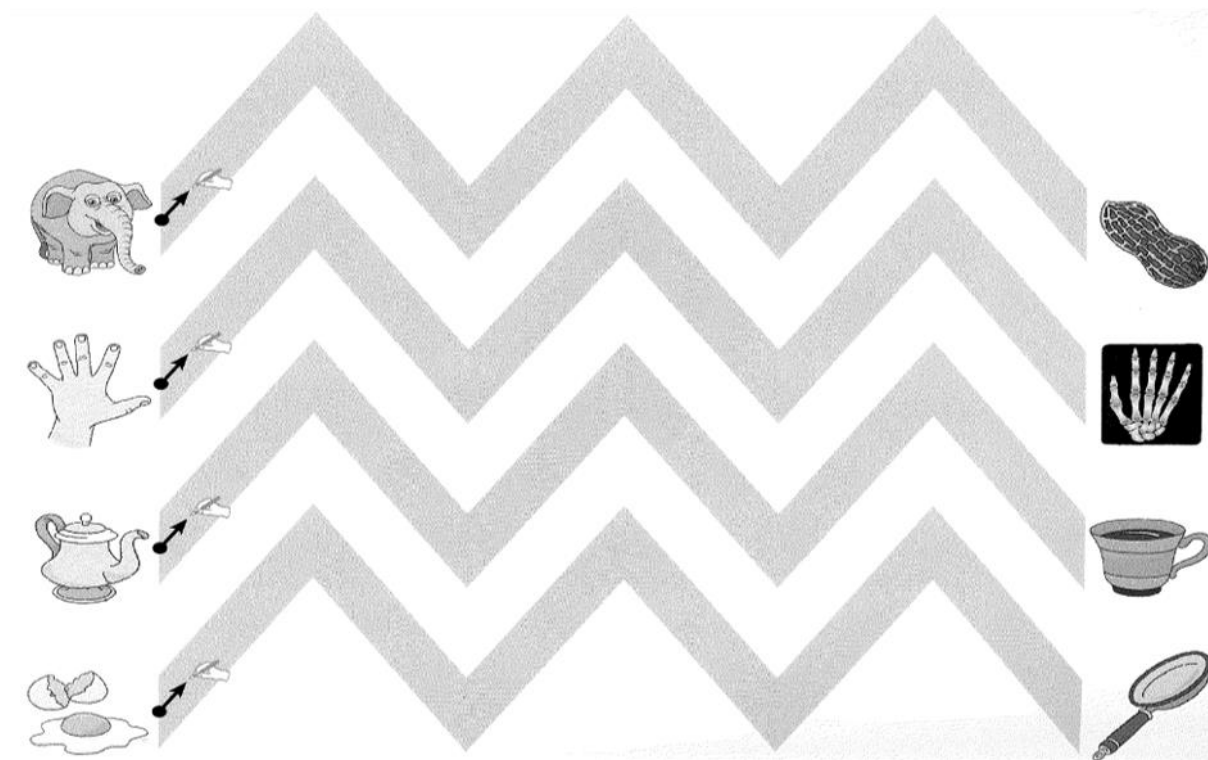

- This activity uses two identical sets of instruments or noise makers. If you don't have instruments at home use common household objects such as saucepan and spoon, keys or make some shakers using empty water bottles and rice. Give your child the opportunity to play one set to introduce the sounds each instrument makes and name them all.
- Then hide behind a screen and choose one instrument from the identical set to play. Encourage your child to identify which instrument has been played.
